

**ASTREE** is our business name. The founders of the company derived it from Greek mythology, where **ASTREE** is known as the Goddess of abundance and the daughter to **THEMIS**, the Goddess of justice, whence the presence of a pair of scales in our sign.

**ASTREE ASSURANCES** was born on **October 22, 1949**. In **1999**, we celebrated its 50th anniversary

It is one of the earliest chartered insurance companies in Tunisia. Interestingly enough, it was founded at a moment when insurance had never been part of the Tunisian culture or daily practices. Since its inception, therefore, the company has been one of the major promoters of this activity, constantly awakening the various social and economic circles in the country and calling their attention to the necessities of the modern world. Today, our company has secured for itself a constant and well balanced development and consolidated its leading position in the market.

Thanks to the wide range of its products and the soundness of its financial ratios, **ASTREE** enjoys a good reputation. According to many, it stands as the right company for all those who seek experience, advice, and reliability.
