

Property is not only what makes a business enterprise. There are also the men and women who put it in motion and keep it going. Here again, we have a whole range of cheap and adequate guarantees for your staff -all at reasonable prices. These include, among others :

- Sickness insurance. By all reports, we are among the most performing companies in this type of coverage.
- Disability consequential to labor accidents, life insurance, and invalidity (whatever the cause might be)
- Personal accident insurance for your staff, with varying capital for each member, according to your wish.

It will be possible, besides, to provide for the latter, namely among the managerial staff, the payment of a capital at the end of their career or a pension for life. Our contract **HORIZON** is precisely conceived to answer this need. It offers a wide range of options, among which you can choose freely. The insured capital may be paid in the form of pensions for life, of a cash sum, or else in another form which combines both. The premiums can either be fixed in advance, or can be gradual; so also as for periodicity. There may be equally a provision for reversibility for the benefit of the spouse, the payment of an additional capital in case of death, etc.
